VALUABLE GRANITE.

Salisbury Company of Half a Million to Work It Out.

Salisbury, Special.—An interesting piece of news which has only now become available relates to the Consolidated Granite Company, whose incorporation with an authorized capital stock of \$500,000 was noted by The Charlotte Observer's Raleigh correspondent last week, and the pink granite deposits of Rowan county. Some time ago Mr. L. H. Jansen, of Kansas City, Mo., a mining engineer of 25 years' experience and standing very high in his profession, was sent here by several Kansas City capitalists to examine and report on the opportunities for profitable investments in the gold and copper mines of this county, and while here on that mission his attention was attracted by the pink granite deposits, near Faith. He was well acquainted with the commercial value of this stone, which is unequalled in beauty except by the finest marbles, and regarded his discovery as of the first importance. Dr. C. V. Hendrick, one of the gentlemen whom Mr. Jansen represented, a holder of large mining interests in the West and Northern Mexico, arrived to make a personal inspection and to consult further with Mr. Jansen. Upon his hearty concurrence in the latter's view, the most valuable pink granite deposit was purchased and a company was organized with Mr. W. H. Winslow as president, Mr. Jansen as vice president and general manager, and Dr. Hendrick as secretary and treasurer. Mr. Winslow is vice president of the National Bank of Commerce, of Kansas City, one of the strongest financial institutions west of Chicago. Dr. Hendrick is now in Kansas City, but is expected to return here next week. The offices of the company will be in Salisbury and Mr. Jansen, as general manager, will be resident here.

The Salisbury company and the valuable property it has acquired, Mr. Jansen said: "Our quarries are located five and one-half miles south of Salisbury adjoining the village of Faith and comprise 151 acres, of which 70 acres are of the highly valuable pink granite and the remainder of an excellent quality of the common gray stone. We shall not neglect the less valuable commodity, and, pending more important developments, have already put 19 men to work on an order for supplying engine beds for the government building at San Francisco. We are planning to build a spur track, two and three-quarter miles in length to our property from the Norwood branch of the Southern Railway. All modern equipment necessary for handling large dimension material will be installed, along with a conveyor to lift the granite from the quarry to the railroad. The property will be operated on an extensive scale."

Prof. Thos. L. Watson, of the chair of geology of Denison University, Greenville, S. C., is here at the instance of Prof. J. A. Holmes, State geologist, and under the auspices of the State Geological Survey, to examine and make a report upon the granite deposits of North Carolina. Beginning here, he will cover the principal granite areas of the State and will be engaged in this work until September 1st. The results of his observations will be embodied in a bulletin which will be published by the State Geological Survey. Prof. Watson is also examining the copper deposits of this immediate section for the United States Geological Survey.

Seaboard's New Sleeper Service.

The Seaboard Air Line Railway has inaugurated a new service of sleepers here, he will cover the principal granite areas of the State and will be engaged in this work until September 1st. The results of his observations will be embodied in a bulletin which will be published by the State Geological Survey. Prof. Watson is also examining the copper deposits of this immediate section for the United States Geological Survey.

North State Note.

Morganton voted in favor of the proposition to establish graded schools by a substantial majority of the registered vote. The number of votes registered was 441. The vote for schools was 244, and against schools 17. Under the act the schools in addition to the tax levy will get \$2,000 per year from the license tax.

The Raleigh & Pamlico Sound Railway Company.

Stonewall, Special.—The Raleigh & Pamlico Sound Railway company stockholders Wednesday organized and elected J. M. Turner president, and Claude B. Barbee secretary. Arrangements were made with a New York firm to take \$1,200,000 first mortgage bond.

Late Monday afternoon, John Mason, a negro, in the delirium of typhoid fever, was found wandering aimlessly about in Latta Park, in Charlotte. He escaped from the boarding house of James M. Goode, colored during the morning. When found by Chief of Police Irwin, Mason was half clad and had been in the water.

Bank Wrecked by a Cashier.

Newburgh, N. H., Special.—Joseph W. Cummins is in jail here on the charge of grand larceny. He was secretary, treasurer and cashier of the Cornwell Bank, and is alleged to be a defaulter to the extent of about \$50,000, wrecking the bank. The State bank examiner appeared at the bank and before the examination of the books Cummins confessed that he was short in his accounts between \$40,000 and \$50,000.

TROUBLES MULTIPLY

Negroes Threaten to Precipitate Riot in New York

THE POLICE RESERVE CALLED OUT

Arrest of a Leader of a Gang Who Were Making Trouble in the Negro Quarter Revisited.

New York, Special.—A riot which required the reserves of three police precincts to suppress, broke out Sunday night in the negro quarter in West Sixty-second street. The trouble was precipitated by the attempt of a policeman to arrest Wm. Johnson, the leader of a gang of negroes who were making a disturbance in the street. The policeman secured his prisoner after a sharp fight and was dragging him to the station house, when he was assailed by a mob and volleys of bricks and stones were hurled at him from the roofs of adjacent tenements.

On the arrival of 20 other policemen, Connor opened fire on a negro on a roof and shots were returned from the windows of the house. Reserves cleared the streets and chased the rioters over the roofs, making several arrests and finally restoring order.

Quiet at Evansville.

Evansville, Ind., Special.—The town has been quiet all day and the officials have had an opportunity to rest up after a week of excitement. The negroes have remained at their homes all day and the services at their churches were not well attended. Many of the negroes who left the city during the week are returning and by the middle of the week business will be resumed in Baptist Town. The authorities will keep no extra guards this week, as they believe the excitement is at an end. It is not thought it will be necessary to guard Lee Brown, the negro, when he is brought back here for trial for killing Policeman Massey.

The Pope Improving.

Rome, by Cable.—Pope Leo has lived to see another Sunday, and with the Sabbath quiet which fell upon Rome, came also peace and even progress to the Pontiff. Beginning Sunday morning with distinct signs of improvement, he maintained this throughout the day. At night Dr. Lappini made the following important statement in answer to the question if he thought that the improvement in the Pope's condition could continue: "I believe that if the improvement lasts until July 21, we may not perhaps achieve an absolute cure, but we will secure such a general state of health in the patient as will allow our anxiety."

Storm in Baltimore.

Baltimore, Special.—A severe wind and rain storm occurred here Sunday afternoon, which was particularly violent in a limited portion of Northwest Baltimore, where within a radius of about four blocks 50 houses were unroofed, walls demolished and trees uprooted. The damage to houses and household goods is estimated at \$100,000. Twenty persons were injured, one seriously, but none killed. The rain fell here for the day was 3.90 inches and the velocity of the wind 46 miles an hour.

Cloudburst at Winchester.

Winchester, Va., Special.—Sunday afternoon the most serious cloudburst ever experienced here, broke over the city, submerging the place in from three to six feet of water. The damage will reach thousands of dollars, as every store, residence and a building in the center of the town is several feet under water.

Death of Major Brown.

Beaumont, Tex., Special.—Cap. F. Brown, of Asbury Park, N. J., one of the best known operators in the Texas oil fields, died in the hospital here. He was graduated from West Point and served as civil engineer in the Spanish-American war, with the rank of major. He was an operator in the West Virginia oil fields and he became prominent in the Texas oil field soon after its discovery.

Storm in Nebraska.

Beaver City, Special.—A terrible electrical and wind storm prevailed here Sunday afternoon, lasting for 45 minutes, in which time two and one-half inches of rain fell. The wind blew with great violence, doing much damage to small buildings, wind-mills and the wheat crop, which is just ready for harvest. The Union Salvation Army of Kansas and Nebraska, now holding a camp-meeting here, suffered much loss. Nine of their tents were blown down. Commander Holland was struck by a falling tent pole and sustained a dislocation of the shoulder.

Bank Wrecked by a Cashier.

Newburgh, N. H., Special.—Joseph W. Cummins is in jail here on the charge of grand larceny. He was secretary, treasurer and cashier of the Cornwell Bank, and is alleged to be a defaulter to the extent of about \$50,000, wrecking the bank. The State bank examiner appeared at the bank and before the examination of the books Cummins confessed that he was short in his accounts between \$40,000 and \$50,000.

SOUTHERN INDUSTRIAL

Road Building School.

One of the most important economic problems before the people of North Carolina today is the improvement of their public roads. The people are at last aroused to the necessity of this work, and within the next few years there will undoubtedly be a demand for a large number of men who have scientific and practical knowledge of road construction. In order to meet this demand the North Carolina College of Agriculture and Mechanical Arts, at Raleigh, offer a summer course in road building for the benefit of those who, from lack of time or for other reasons, are unable to take advantage of the regular college courses in engineering and road building. The course will be such as to prepare those who wish to take up this work in the future, and will also be of great benefit to those who are already engaged in road building.

Instruction will be given in location, grading, construction of roadbed, drainage and the use of the various materials for the road covering. Road-making machinery will be discussed, and the advantages and disadvantages of each machine explained as applying to the different localities of our State. Practical instruction will be given in such use of the level instrument as is necessary to the road builder, and also such draughting as is essential to his work. Visits will be made to where roads are being built around Raleigh. The course will be charge of Prof. W. C. Redick, C. E., who will be assisted by Mr. C. L. Mann, B. C. E.

NORTH STATE CROPS.

Most Favorable Bulletin Issued By the Department This Season.

The weather during the past week was extremely favorable both for the rapid growth of crops and for the advancement of farm work; many correspondents state that conditions were the most beneficial experienced so far this season. The week was characterized by continuous sunshine, great warmth, and a general absence of precipitation until near the close of the week, when very light showers occurred at many places which were beneficial. The mean temperature for the State was 80 degrees, or about 4 degrees above the normal; the week was, in fact, the first with temperatures above the normal since the latter part of May. Maximum temperatures above 90 degrees occurred nearly everywhere on every day of the week. Under favorable conditions for work much grass and many weeds were killed, plowing progressed well and in most sections crops were placed in an excellent state of cultivation. The two circumstances: good warm growing weather, and excellent tillage, caused a marked improvement in crops generally, and perhaps with a continuation of favorable weather the very backward condition of most crops may yet be largely overcome.

Cotton improved considerably, and has now begun to grow rapidly; rice are still reported in places, but most of them have disappeared; while still in places in several counties, the work of placing the crop in good cultivation is advancing favorably; cotton blooms are reported in several southern counties, Brunswick, Columbus, Scotland, Anson and also Edgecombe. Corn looks very green and thrifty; laying on has nearly been completed in the east, while much of the crop is being laid by rather small in the west; forward corn is coming into silk and tassels. Tobacco has also improved, but late set appears to be better than that planted early, as it is not buttoning so low; tobacco will be late, but is beginning to ripen more rapidly; cutting and curing continue on a moderate scale in the east. Sweet potatoes, peanuts and gardens are doing well. The prospects for rice are promising. There are still some spring oats to be cut in the west; thrashing the cereals continues. A fine crop of hay was made and safely housed during the week. Apples are still dropping to some extent, which at their present size is not promising, though a fairly good crop is still indicated in the central east. Grapes appear to be less abundant than anticipated. Melons are late. Rains reported: Goldsboro, 0.90 inches; Greensboro, 0.04; Lumberton, 1.75; Newbern, 1.12; Weldon, 0.24; Charlotte, 0.80; Wilmington, 0.30; Asheville, 1.60 and Raleigh, 0.16.

Killed by Lightning.

Louisburg, Special.—Lightning struck the home of Mr. Frank Dikes, who lives near Louisburg, Monday afternoon and instantly killed Mrs. Nannie Dean, his wife's sister, and his 10-year-old son. Mrs. Davis and her older son were badly burned and Mr. Davis was shocked severely. The house was greatly damaged.

Twenty Lives Lost.

Tallegada, Ala., Special.—Jos. B. Graham, one of the most prominent lawyers and educators in Alabama, who lives near Louisburg, Monday afternoon and instantly killed Mrs. Nannie Dean, his wife's sister, and his 10-year-old son. Mrs. Davis and her older son were badly burned and Mr. Davis was shocked severely. The house was greatly damaged.

Jeannette, Pa., Special.—As a result of the breaking of the Oak Ford Park dam, twenty persons are known to be dead and 16 are missing. The property loss in the valley will reach \$1,500,000, and the distress is so great that outside relief will have to be asked for. The number of lives lost was not so great as estimated.

Will Be Sentenced.

Key West, Fla., Special.—Fred Ewart was convicted of murder in the first degree and will be sentenced to hang. Ewart was tried for the murder of Frank Whitaker. He made a full confession of the crime, claiming that he had invited Whitaker to go on board the New Venice to get some clams; that while there Whitaker cursed him, and that while enraged he (Ewart) picked up an axe and struck Whitaker with it. He did not remember striking him more than once, but admitted that he might have done so.

Car Strike Growing Better.

Richmond, Special.—The Street Railway Company has been covering practically its entire city territory without military protection, militia guards being placed on the cars of the Manchester and Seven Pines lines only. The troops will from this time on be withdrawn by degrees and is quietly as withdrawn from the city. Passenger travel on the cars is rapidly approaching normal proportions.

THE POPE'S ILLNESS

Leo Thirteenth Holds His Own at the Close of First Week's Illness

HIS LAST HOUR HAS NOT COME

The Manner in Which a Successor to the Pope Will Be Chosen — Many Candidates Seek Election.

Rome, by Cable.—The first week of the Pope's serious illness closed with his condition practically unchanged. Two operations have been performed, and for a man of 94 years he has stood the strain of dangerous illness remarkably well. Two of his most devoted attendants have died during the week from the constant watching at his bedside. The world has watched his sickness with expectancy, hourly looking for his death. The bulletins of Saturday give the following account of his condition: "A general feeling of tranquility marked the day in Rome yesterday, due to widespread belief, that though the Pope's days are numbered his hour has not yet come."

The news of Friday morning's operation sent cardinals and ambassadors driving hurriedly to the Vatican of the former, relieved only by glimpses. The sombre black carriages and horses of the papal robes worn by the pale faced occupants, contrasted strangely with the brilliant equipages of the ambassadors. Outside St. Peter's the ordinary visitors hurried past the guards and ascended the staircase leading to the inner court of the Vatican.

The sun beat fiercely on the plain white shutters which shelter the Pope's room, and all eyes were turned to watch them. Compared with the magnificence below, with the bewildering colors of the papal court, and the rich attire of the guards, the shuttered windows were peasant-like in their simplicity. Another window caught the eye. This was open and the sun streamed in on Raphael's priceless frescoes and lit up the great marble portico. "Within there," said a papal attendant, "the rooms are all ready for Gregorio, the cardinal deacon, who will reign during the interregnum." The same grim preparation is apparent on all sides. Count Bacci, a nephew of the dying Pope, wearing a straw hat and flannels, sat in the fire engine house opposite the private entrance to the Vatican chatting with the firemen. Carriage after carriage drove into the court. All the cardinals and countless bishops and priests came to await the bulletin. A small crowd of men, women and children of all descriptions besieged the door where the news was to be given out.

From the castle of St. Angelo came the boom of the midday gun and then the palatine guard gave the signal for the anxious crowd to be admitted. Passing through the corridor the remains of the dying Pope, the Pope, wearing a straw hat and flannels, sat in the fire engine house opposite the private entrance to the Vatican chatting with the firemen. Carriage after carriage drove into the court. All the cardinals and countless bishops and priests came to await the bulletin. A small crowd of men, women and children of all descriptions besieged the door where the news was to be given out.

The Succesor. In the event of the Pope's death his office will be filled by Gregorio, the resident cardinal deacon for fifteen days, when an election will be held by the college of Cardinals. The election will take place in the Sistine Chapel, the candidate who is chosen as the future Pope must receive a two-thirds majority. A number of Cardinals are already avowed candidates for the papal throne. The prospects are that the successful candidate will be an Italian. In this connection the following

Capt. A. Theis has sold the Phoenix gold mine in Cabarrus county to the Miami Mining Company of Pittsburgh, Pa. The purchase price was \$18,000.

Mr. John McKee, of Gulf Township, Chatham county died suddenly Wednesday with what is thought to have been neuralgia of the heart.

A new mechanical invention intended to stop trains approaching each other and prevent collisions will be put to a thorough test at the Chatham county on the 23rd inst. The invention is that of Mr. Mortimer Kingsley, and the outcome of the test will be awaited with lively interest.

The express office at Red Springs, Robeson county, was entered Thursday night and between fifty and one hundred dollars was taken from the wooden box used as a safe. The robbers entered through a window and worked a large hole in the top of the box to get to the money. They left the place and hid in the express office.

Mr. D. L. Maulsby, who lives near Hillsboro, Columbus county, was severely bitten in the leg by a rattlesnake a day or two ago while in the woods near his house. The snake, which was an unusually large one, was killed by Mr. Maulsby immediately after he was bitten. The attending physician said he would recover.

Dolly Springs, the ten-year old colored girl who was severely burned while making a fire with kerosene oil at the home of Mrs. Chas. Upchurch, in Charlotte, Friday, died at 5:45 in the afternoon. From the time of the accident until death came, the child suffered intense pain. She was finally burned about the body and arms.

Finley Winkler, son of Mrs. Tom Campbell, of Straw, near Wilkesboro, was brought home from West Virginia Thursday in a coffin. He had been working out there for about two years. He was killed by a man by the name of Porter, with whom he was boarding on account of jealousy. Porter had about his wife and Winkler. Mr. Winkler was about 30 years old.

A survey has been completed for a new railroad to extend from Whittier to Socco Gap in the Balsam Mountains. The Lippincotts, of Philadelphia, the Mason Lumber company, the Hans Reese Tanning Company and several Eastern capitalists are said to be interested in the road, which will be about twenty-four miles long, traversing a region of oak, hickory, and hard wood. It is to be completed by January 1, next.

Southern Negro Congress. The Southern Negro Congress met here Wednesday. President A. J. Golden, of Mississippi, called the session to order. Booker T. Washington is expected. The principal subject of discussion will be that of planning a way to bring about more friendly relations between the races. The congress is an off-shoot of the Southern Negro congress, held last year at Galveston, Texas. About 50 delegates are here.

Was on Race Question. Put-in-Bay, Ohio, Special.—Four hundred members of the Ohio Bar Association met here for a long session from John S. Wise, ex-governor of Virginia, on "The Constitutional View of the Race Question." He said the race question in America was one of the most threatening with which the country had to contend.

Was Not Blown Up. Horta Azore Island, by Cable.—The United States battleship Massachusetts and the converted yacht Mayflower, accompanied by the colliers Caesar, Sterling and Lebanon, arrived at Horta Azore Island, Portugal, all well on board. High Russian officials held an important conference at Port Arthur, and the situation seemed warlike.

Bulls tried to rally the cotton market in New York, but failed.

VALUABLE GRANITE.

Salisbury Company of Half a Million to Work It Out.

Salisbury, Special.—An interesting piece of news which has only now become available relates to the Consolidated Granite Company, whose incorporation with an authorized capital stock of \$500,000 was noted by The Charlotte Observer's Raleigh correspondent last week, and the pink granite deposits of Rowan county. Some time ago Mr. L. H. Jansen, of Kansas City, Mo., a mining engineer of 25 years' experience and standing very high in his profession, was sent here by several Kansas City capitalists to examine and report on the opportunities for profitable investments in the gold and copper mines of this county, and while here on that mission his attention was attracted by the pink granite deposits, near Faith. He was well acquainted with the commercial value of this stone, which is unequalled in beauty except by the finest marbles, and regarded his discovery as of the first importance. Dr. C. L. V. Hedrick, one of the gentlemen whom Mr. Jansen represented, a holder of large mining interests in the West and Northern Mexico, arrived to make a personal inspection and to consult further with Mr. Jansen. Upon his hearty concurrence in the latter's view, the most valuable pink granite deposit was purchased and a company was organized with Mr. W. H. Wimsauk as president; Mr. Jansen as vice president and general manager, and Dr. Hedrick as secretary and treasurer. Mr. Wimsauk is vice president of the National Bank of Commerce, of Kansas City, one of the strongest financial institutions west of Chicago. Dr. Hedrick is now in Kansas City, but is expected to return here next week. The offices of the company will be in Salisbury and Mr. Jansen, as general manager, will be resident here.

Speaking of the company and the valuable property it has acquired, Mr. Jansen said: "Our quarries are located five and one-half miles south of Salisbury adjoining the village of Faith and comprise 151 acres, of which 70 acres are of the highly valuable pink granite and the remainder of an excellent quality of the common gray stone. We shall not neglect the less valuable commodity, and, pending more important development, have already put 10 men to work on an order for supplying granite for the government building at San Francisco. We are planning to build a spur track one and three-quarter miles in length to our property from the Norfolk branch of the Southern Railway. All modern equipment necessary for handling large dimension material will be installed, along with a crusher to utilize waste and the property will be operated on an extensive scale."

Prof. Thos. L. Watson, of the chair of geology of Denison University, Granville, O., is here at the instance of Prof. J. A. Holmes, State Geologist, and under the auspices of the State Geological Survey, to examine and make a report upon the granite deposits of North Carolina. Beginning here, he will cover the principal granite areas of the State and will be engaged in this work until September 1st. The results of his observations will be embodied in a bulletin which will be published by the State Geological Survey. Prof. Watson is also examining the copper deposits of this immediate section for the United States Geological Survey.

Seaboard's New Sleeper Service. The Seaboard Air Line Railway has inaugurated a new service of sleepers between Hamlet and Wilmington. This service will be operated on a regular basis, and will be patronized by persons who patronize the coast route of eastern North Carolina. Hereafter there has been no such accommodation. These sleepers will make tri-weekly trips, leaving Hamlet on Tuesdays, Thursdays and Saturdays at 10:45 p. m., and arriving at Wilmington next morning following at 7 a. m. Returning the sleepers will leave Wilmington on Wednesdays, Fridays and Mondays at 8 p. m., arriving at Hamlet at 6 next morning following. This service will be highly appreciated by the traveling public, and shows the disposition of the Seaboard to accommodate its patrons.

North State Note. Morganton voted in favor of the proposition to establish graded schools by a substantial majority of the registered vote. The number of votes registered was 441. The vote for schools was 244, and against schools 197. Under the act the schools in addition to the tax levy will get \$2,000 per year from the license tax.

The Raleigh & Pamlico Sound Railway Company stockholders Wednesday organized and elected J. M. Turner president, and Claude B. Barbee secretary. Arrangements were made with a New York firm to take \$1,200,000 first mortgage bond.

Late Monday afternoon, John Mason, a negro, in the delirium of typhoid fever, was found wandering aimlessly about in Latta Park, in Charlotte. He escaped from the boarding house of James M. Goode, colored during the morning. When found by Chief of Police Irwin, Mason was half clad and had been in the water.

The local baggage handlers of the Southern Railway Company in Asheville Tuesday went on a strike for an increase in wages from an average of 75 cents per day to \$1.00 per day. All of the strikers are negroes and it was thought at first that there could be no help hired to fill their places, but finally all the labor necessary was secured to fill the strikers' places. The local colored baggage men of that city have no union and it is not very likely that any additional trouble will arise. There were only about ten men affected by the strike.

TROUBLES MULTIPLY

Negroes Threaten to Precipitate Riot In New York

THE POLICE RESERVE CALLED OUT

Arrest of a Leader of a Gang Who Were Making Trouble in the Negro Quarter Resisted.

New York, Special.—A riot which required the reserves of three police precincts to suppress, broke out Sunday night in the negro quarter in West Fifty-second street. The trouble was precipitated by the attempt of a policeman to arrest Wm. Johnson, the leader of a gang of negroes who were making a disturbance in the street. The policeman secured his prisoner after a sharp fight and was dragging him to the station house, when he was assailed by a mob and volleys of bricks and stones were hurled at him from the roofs of adjacent tenements.

On the arrival of 20 other policemen, Connor opened fire on a negro on a roof and shots were returned from the windows of the house. Reserves cleared the streets and chased the rioters over the roofs, making several arrests and finally restoring order.

Quiet at Evansville. Evansville, Ind., Special.—The town has been quiet all day and the officials have had an opportunity to rest up after a week of excitement. The negroes have remained at their homes all day and the services at their churches were not well attended. Many of the negroes who left the city during the week are returning and by the middle of the week business will be resumed in Baptist Town. The authorities will keep no extra guards this week, as they believe the excitement is at an end. It is not thought it will be necessary to guard Lee Brown, the negro, when he is brought back here for trial for killing Policeman Massey.

The Pope Improving. Rome, by Cable.—Pope Leo has lived to see another Sunday, and with the Sabbath quiet which fell upon Rome, came also peace and even progress to the Pontiff. Beginning Sunday morning with distinct signs of improvement, he maintained this throughout the day. At night Dr. Lappini made the following important statement in answer to the question if he thought that the improvement in the Pope's condition could continue: "I believe that if the improvement lasts until July 21, we may not perhaps achieve an absolute cure, but we will secure such a general state of health in the patient as will allay our anxiety."

Storm in Baltimore. Baltimore, Special.—A severe wind and rain storm occurred here Sunday afternoon, which was particularly violent in a limited portion of Northwest Baltimore, where within a radius of about four blocks 50 houses were unroofed, walls demolished and trees uprooted. The damage to houses and household goods is estimated at \$100,000. Twenty persons were injured, one seriously, but none killed. The rainfall here for the day was 2.90 inches and the velocity of the wind 46 miles an hour.

Cloudburst at Winchester. Winchester, Va., Special.—Sunday afternoon the most serious cloudburst ever experienced here, broke over the city, submerging the place in from three to six feet of water. The damage will reach thousands of dollars, as every store, residence and a building in the centre of the town is several feet under water.

Death of Major Brown. Beaumont, Tex., Special.—Cap. F. Brown, of Asbury Park, N. J., one of the best known operators in the Texas oil fields, died here Sunday afternoon. He was graduated from West Point and served as civil engineer in the Spanish-American war, with the rank of major. He was an operator in the West Virginia oil fields and he became prominent in the Texas oil field soon after its discovery.

Storm in Nebraska. Beaver City, Special.—A terrible electrical and wind storm prevailed here Sunday afternoon, lasting for 45 minutes, in which time two and one-half inches of rain fell. The wind blew with great violence, doing much damage to small buildings, wind-mills and the wheat crop, which is just ready for harvest. The Union Salvation Army of Kansas and Nebraska, now holding a camp-meeting here, suffered much loss. Nine of their tents were blown down. Commander Holland was struck by a falling tent pole and sustained a dislocation of the shoulder.

Bank Wrecked by a Cashier. Newburgh, N. H., Special.—Joseph W. Cumlin is in jail here on the charge of grand larceny. He was secretary, treasurer and cashier of the Cornwell Bank, and is alleged to be a defaulter to the extent of about \$50,000, wrecking the bank. The State bank examiner appeared at the bank and before the examination of the books Cumlin confessed that he was short in his accounts between \$40,000 and \$50,000.

SOUTHERN INDUSTRIAL

Road Building School.

One of the most important economic problems before the people of North Carolina today is the improvement of their public roads. The people are at last aroused to the necessity of this work, and within the next few years there will undoubtedly be a demand for a large number of men who have scientific and practical knowledge of road construction. In order to meet this demand the North Carolina College of Agriculture and Mechanical Arts, at Raleigh, offer a summer course in road building for the benefit of those who, from lack of time or for other reasons, are unable to take advantage of the regular college courses in engineering and road building. The course will be such as to prepare those who wish to take up this work in the future, and will also be of great benefit to those who are already engaged in it.

Instruction will be given in location, grading, construction of roadbed, drainage and the use of the various materials for the road covering. Road-making machinery will be discussed, and the advantages and disadvantages of each machine explained as applying to the different localities of our State. Practical instruction will be given in such use of the level instrument as is necessary to the road builder, and also such draughting as is essential to his work. Visits will be made to where roads are being built around Raleigh. The course will be charge of Prof. W. C. Riddick, C. E., who will be assisted by Mr. C. L. Mann, B. C. E.

Textile Notes. Eagle and Phenix Mills, Columbus, Ga., has declared a dividend of 6 per cent. Opelika (Ala) Cotton Mills has declared an annual dividend of 15 per cent. Messrs. Wincert & McCutchen, of Hagerstown, Md., and M. V. A. Norris, of Berkeley Springs, W. Va., contemplate establishing a hosiery mill.

Messrs. J. Fletcher Colbert, R. M. Gaudin, Wm. Thompson, J. J. Waggoner and others will organize a company to build a \$50,000 cotton mill at Colbert, Ga.

The Newton (N.C.) Cotton Mills has let contract for the erection of one-story building, a warehouse and office building, and has ordered sixty additional knitting machines.

Crawford Woolen Co., of Martinsburg, W. Va., has purchased site for additional building; will erect same and install more machinery. Present equipment is fifty looms, etc.

It is reported that E. M. Clemence has declined reelection as treasurer of the Eagle and Phenix Mills, Columbus, Ga., and will organize another cotton mill company. Local reports state that Mr. Clemence will arrange for the purchase of \$200,000 in a plant for manufacturing colored goods.

Messrs. F. H. Fries, John W. Fries, W. A. Blair and Clement Manly have incorporated the Arista Mills Co., at Winston-Salem, N. C., with an authorized capital stock of \$350,000. This company comprises the properties of Spring Side Manufacturing Co. and Arista Mills, operating a total of 16-184 spindles and 568 looms.

American Spinning Co., Greenville, S. C., has declared a dividend of 3 1/2 per cent; Brandon Mills, also of Greenville, 3 per cent; Monrohan Mills, Greenville, 3 per cent; Mills Manufacturing Co., Greenville, 3 per cent; Piedmont Manufacturing Co., Piedmont, S. C., 6 per cent, and Fountain Inn Manufacturing Co., Fountain Inn, S. C., 4 per cent.

Industrial Miscellany. The Rock Creek Colliery Company has been incorporated with capital of \$250,000 for development of coal mines and manufacture of coke at Madison, W. Va., by T. A. Dietz, Charleston, W. Va.; A. L. Noel, Covington, Va.; F. C. Clanton, J. C. Payne and M. Sackett, of Roanoke, Va.

In Mississippi last week the following saw-mill companies were incorporated: Mississippi Cypress Co. of Clarksdale, capital \$20,000; Reuter Manufacturing Co. of Clarksdale, capital \$25,000; Van Cleave Lumber Co. of Moss Point, capital \$50,000, and Whitesand Lumber Co. of Whitesand, capital \$5,000.

The Bagdad Sash Factory Co. at Bagdad, Fla., has added a large dry-kiln to its plant, which will make it one of the most complete and best-equipped plants in the South. A lumber company of Fort Worth, Texas, recently sold to the El Paso & Southwestern Railway Co., owned by the Phelps-Dodge Company, 60,000 cross-ties to be used on this line.

A permit was issued last week for the erection of a factory by the Rock City Spoke Co. of Nashville, Tenn. The factory will cost \$2,000, and work has already commenced on the building. Fielder & Allen Company, 61 Peachtree street, Atlanta, Ga., wants quarried oak lumber suitable for the manufacture of desks.

The Finger Lumber Co., of Lexington, N. C., has been chartered, with a capital of \$50,000, by H. K. Finger, W. A. Anthony, E. J. Buchamen and D. F. Conrad. T. M. Williams & Bro. of O'Brien, Fla., have bought out the saw-mill and business of George Dowling of Bradford, Fla. The purchase consists of a saw-mill with capacity of 25,000 feet daily, a locomotive and several miles of railroad in Lafayette county, besides a large body of timber land. The consideration is said to be about \$55,000.

NORTH STATE CROPS.

Most Favorable Bulletin Issued By the Department This Season.

The weather during the past week was extremely favorable both for the rapid growth of crops and for the advancement of farm work; many correspondents state that conditions were the most beneficial experienced so far this season. The week was characterized by continuous sunshine, great warmth, and a general absence of precipitation until near the close of the week, when very light showers occurred at many places which were beneficial. The mean temperature for the State was 80 degrees, or about 1 degree above the normal; the week was, in fact, the first with temperatures above the normal since the latter part of May. Maximum temperatures above 90 degrees occurred nearly everywhere on every day of the week. Under favorable conditions for work much grass and many weeds were killed, plowing progressed well and in most sections crops were placed in an excellent state of cultivation. The two circumstances: good warm growing weather, and excellent tillage, caused a marked improvement in crops generally, and perhaps with a continuation of favorable weather the very backward condition of most crops may yet be largely overcome.

Cotton improved considerably, and has now begun to grow rapidly; rice are still reported in places, but most of them have disappeared; while still grassy in several counties, the work of placing the crop in good cultivation is advancing favorably; cotton blooms are reported in several southern counties, Brunswick, Columbus, Scotland, Anson and also Edgecombe. Corn looks very green and thrifty; laying off has nearly been completed in the east, while much of the crop is being laid by rather small in the west; forward corn is coming into silk and tassels. Tobacco has also improved, but late set appears to be better than that planted early, as it is not buttoning so low; tobacco will be late, but is beginning to ripen more rapidly; cutting and curing continue on a moderate scale in the east. Sweet potatoes, peanuts and gardens are doing well. The prospects for rice are promising. There are still some spring oats to be cut in the west; thrashing the cereals continues. A fine crop of hay was made and safely housed during the week. Apples are still dropping to some extent, which at the present size is not promising, though a fairly good crops is still indicated in the central east. Grapes appear to be less abundant than anticipated.

Melons are late. Rains reported: Goldsboro, 0.90 inches; Greensboro, 0.04; Lumberton, 1.75; Newbern, 1.12; Weldon, 0.24; Charlotte, 0.80; Wilmington, 0.30; Asheville, 1.60 and Raleigh, 0.16.

Killed by Lightning. Louisville, Special.—Lightning struck the home of Mr. Frank Dikes, who lives near Louisville, Monday afternoon and instantly killed Mrs. Nannie Dean, his wife's sister, and his 10-year-old son. Mrs. Davis and her older son were badly burned and Mr. Davis was shocked severely. The house was greatly damaged.

Two Killed. Tallagadda, Ala., Special.—Jos. B. Graham, one of the most prominent lawyers and educators in Alabama, and Miss Jeannette Joiner, were run over and killed by a freight train at the station while preparing to leave the city. Mr. Graham was circuit court solicitor, field agent of the Southern educational board and a noted leader in general educational matters.

Twenty Lives Lost. Jeannette, Pa., Special.—As a result of the breaking of the Oak Ford Park dam, twenty persons are known to be dead and 16 are missing. The property loss in the valley will reach \$1,500,000 and the distress is so great that outside relief will have to be asked for. The number of lives lost was not so great as estimated.

Will Be Sentenced. Key West, Fla., Special.—Fred Ewart was convicted of murder in the first degree and will be sentenced to hang. Ewart was tried for the murder of Frank Whitaker. He made a full confession of the crime, claiming that he had invited Whitaker to go on board the New Venice to get some clams; that while there Whitaker cursed him, and that while enraged he (Ewart) picked up an axe and struck Whitaker with it. He did not remember striking him more than once, but admitted that he might have done so.

Car Strike Growing Bitter. Richmond, Ga., Special.—The Street Railway Company has been covering practically its entire city territory without military protection, militia guards being placed on the cars of the Manchester and Seven Pines lines only. The troops will from this time on be withdrawn by degrees and is quietly as possible from the city. Passenger travel on the cars is rapidly approaching normal proportions.

Industrial Notes. Weldon (N. C.) Cotton Mill Co.'s three-story addition reported last week will be 15x40 feet, being an extension to the knitting mill. Finishing machinery for underwear will be installed. The improvements will cost about \$5000.

E. B. Chester of Obion county, Tennessee, has purchased 2,000 acres of timber land in the vicinity of Brownsville, Tenn., and will erect mill for the manufacture of lumber and dimension stock.

THE POPE'S ILLNESS

Leo Thirteenth Holds His Own at the Close of First Week's Illness

HIS LAST HOUR HAS NOT COME

The Manner in Which a Successor to the Pope Will Be Chosen — Many Candidates Seek Election.

Rome, by Cable.—The first week of the Pope's serious illness closed with his condition practically unchanged. Two operations have been performed, and for a man of 94 years he has stood the strain of dangerous illness remarkably well. Two of his most devoted attendants have died during the week from the constant watching at his bedside. The world has watched his sickness with expectancy, hourly looking for his death. The bulletins of Saturday give the following account of his condition: "A general feeling of tranquility marked the day in Rome yesterday, due to widespread belief, that though the Pope's days are numbered his hour has not yet come."

The news of Friday morning's operation sent cardinals and ambassadors driving hurriedly to the Vatican of the former, relieved only by glimpses. The sombre black carriages and horses of the scarlet robes worn by the pale faced occupants, contrasted strangely with the brilliant equipages of the ambassadors. Outside St. Peter's the ordinary visitors hurried past the guards and ascended the staircase leading to the inner court of the Vatican.

The sun beat fiercely on the plain white shutters which shelter the Pope's room, and all eyes were turned towards them. Compared with the magnificence below, with the bewildering colors of the papal court, and the rich attire of the guards, the shuttered windows are peasant-like in their simplicity. Another window caught the eye. This was open and the sun streamed in on Raphael's priceless frescoes and lit up the great marble portico. "Within there," said a papal attendant, "the rooms are all ready for Gregalia, the cardinal deacon, who will reign during the interregnum." The same grim preparation is apparent on all sides. Count Pecci, a nephew of the dying Pope, fearing a stray shot and fanned, sat in the fire escape house opposite the private entrance to the Vatican chatting with the firemen. Carriage after carriage drove into the court. All the cardinals and countless bishops and priests came to await the Pope. A small crowd of men, women and children of all descriptions besieged the door where the news was to be given out.

From the castle of St. Angelo came the boom of the midday gun and then the palatine guard gave the signal for the anxious crowd to be admitted. Passing through the corridor each received a slip of white paper on which the morning bulletin was already printed. Intently reading these papers, the crowd filed out through another door past the armed guard and into the quiet streets. During the remainder of the day but few souls were seen. Then came the night bulletin and far larger crowds than had gathered during the day wandered to the Vatican in the cool of the evening. The Swiss Guards had received instructions only to admit a small portion of the inquirers prior to the printing of the bulletin, and even this restricted number almost filled the court of the Vatican while many waited in suspense on the steps of St. Peter's.

The Succesor. In the event of the Pope's death his office will be filled by Gregalia, resident cardinal deacon for fifteen days, when an election will be held by the college of Cardinals. The election will then be entered into, and the candidate who is chosen as the future Pope must receive a two-thirds majority. A number of Cardinals are already avowed candidates for the papal throne. The prospects are that the successful candidate will be an Italian. In this connection the following is given:

The Pope's end being near, public attention is almost exclusively concentrated on his possible successor, and the movements of the cardinals are closely watched. Several of them have visited Cardinal Gotti, Prefect of the Sacred Congregation of Bishops and Regulars and of Regular Discipline. Gotti, in the first balloting in the conclave, will have many votes, but certainly not the two-thirds majority necessary to elect, because there is a strong party in the Vannutelli and Rampolla groups, about ten in number, will vote against him.

The attitude of Cardinal Francis Satolli, Prefect of the Congregation of Studies, and formerly papal delegate at Washington, in this wholesale canvassing attracts attention. He lives a retired life, avoids meeting his colleagues, and only goes to the Vatican when it is absolutely necessary. He is evidently posing as a neutral on whom the majority may fall if the conflicting factions become tired. Cardinal Satolli has no enemies in the Sacred College, and is of the most respectable antecedents. The foregoing are the current who will vote against him.

Gen Longstreet III. Macon, Ga., Special.—A Gainesville dispatch to The Telegraph says that General James Longstreet is dangerously ill and that physicians will perform an operation for the removal of his left eye, destroyed by a cancer. On account of his age, 81 years, he may not be able to withstand the shock, though he has assented to the operation.

RALEIGH, N. C.

"LAWLESSNESS WALKED THE STATE LIKE A PESTILENCE."

GOVERNOR AYCOCK STATED IN HIS INAUGURAL ADDRESS THAT UNDER, AND THEREFORE BY IMPLICATION IN CONSEQUENCE OF, FUSION RULE "LAWLESSNESS WALKED THE STATE LIKE A PESTILENCE, CRIME STALKED ABOARD AT NOON-DAY, SLEEP LAY DOWN WITH ALARM AND THE SOUND OF THE PISTOL WAS MORE FREQUENT THAN THE SONG OF THE MOCKING BIRD." HOW STANDS THE CASE TO-DAY GOVERNOR? HAVEN'T THE ACTS OF THREE RED SHIRT LEGISLATURES AND MORE THAN TWO YEARS OF YOUR OWN BENEFICENT RULE PASSED INTO HISTORY SINCE YOU PROCLAIMED THE FORGOING? WHEN YOU ARE CAUVING OVER THE STATE WHIPPING FOR EDUCATION AND ROADS DON'T YOU HEAR OF MORE CRIMES BEING COMMITTED IN NORTH CAROLINA THAN EVER BEFORE AND DO YOU CONTINUE TO ATTRIBUTE THESE TO FUSION RULE?

SOME BLESSINGS OF GOD (?) GOVERNMENT.

The valuation of property is to be raised, we are told, any where from seventy five to one hundred and fifty millions. This it is calculated will raise from twenty to thirty three per cent. more money than formerly. The State authorities simply figured on the appropriations and expenditures by the legislature and saw there was not sufficient money either in hand or in prospect to foot the bills, much less to make a single payment towards reducing the enormous debt piled up by the Simmons-Aycack management, and were impressed with the idea that "a condition—not a theory confronted them." The highbanded game of "red shirting" the state into meek submission to all manner of polio-trickery knavery and debauchery, including the heinous crime of rape upon the goddess of liberty, had been a costly proceeding.

There were bills to pay. More over there were scores to settle, and big ones. There were cross roads politicians of high and low degree—mostly the latter—who had organized and led mobs in the diabolical performance of debauching the suffrage, and these must be provided with jobs at state expense in recognition of their services; for it was accounted a sacrifice, for even Frank Winston to "sink his conscience" and cavort up and down the State organizing people into maniacal mobs "for the public good." There had been twelve judges of the Superior Court under Fusion rule, but the number must increase to sixteen. Not so much that twelve could not do the work required as that there were a large number of mediocre lawyers hungering and thirsting to wear the judicial ermine and pocket the salary as evidence that their heroic services in bull dozing the people had been duly appreciated by the powers that be. The plan adopted was to create offices, where they did not exist, until the morbid craving of the faithful could be appeased, and now under good (?) government sixteen judges are required to do the work which twelve formerly did, although it takes twelve thousand additional dollars of the people's money to foot the bill, to say nothing of the increase in court expenses paid by the different counties for extra and unnecessary terms of court.

Some of our contemporaries are complaining over the fact that as yet they have been unable to secure copies of the laws enacted by the last legislature. It is quite natural that every one should wish to see just what laws were enacted, but you can't blame the authorities for being ashamed of many of them and for not wishing to publish them to the world.

The old State Arsenal is still standing on the South-west corner of the Capitol Square.

Up to the hour of going to press we had not seen an itemized statement of the books of the penitentiary showing that great surplus the democrats stated some time ago that they had on hand.

"We have had in North Carolina a peculiar period of stress and storm. Our state has undergone a revolution since 1897. Large sections of our State were under arms. Such periods invariably bring an aftermath of violence. Again, we may find a cause in the frequency of lynchings. Life is life, and it is cheapened at every man's peril. The habit of condoning this crime will invariably react upon the white race."

The above appeared in last week's issue of the Biblical Recorder. The Recorder is right as to the cause of the increase in the number of crimes committed in the State in the last few years, and we could not expect other than for crime to be on the increase after having lawless mobs of red-shirters parade our State loaded with bad whiskey, pistols and shotguns, taking the law into their own hands and terrorizing the whole State. These red-shirters were the tools of the democratic party, incited to violence to gain their political ends. These men were shielded from the law, and this did not have the tendency to make them law-abiding citizens afterwards. And such lawlessness has had a very damaging influence over the younger generation which will take many decades for them to outlive.

DEMOCRATIC REGISTRAR GONE WRONG.

This Time It is Almost Under the Dome of the Capitol.

[Editor Caucasian.] The democratic registrar for Panther Branch Township Wake County, N. C. in the elections of 1900, and 1902 recently (?) went wrong. And here is what he did. Made a mortgage on lands belonging to his wife forging her name the name of a magistrate and that of the clerk of the Superior Court for the county. On this mortgage he drew, it is said, \$1000.00. He mortgaged saw mill and cotton gin plants and machinery, none of which he possessed and drew \$5000.00.

He mortgaged cotton not a pound of which he owned or had in his possession and drew several hundred dollars on that.

He forged notes and endorsements thereto for the sum of \$500.00 and then absconded to parts unknown. Now, we are moved to wonder if any body is surprised! If they are we desire to inform them that this part of the population is not, for in the year 1900, we were at the polling place in Panther Branch Township Wake Co., N. C. and saw this self same democratic registrar help to steal the election in that township.

Yes, openly and above board, assisted in this high handed robbery of the citizens most sacred right.

Some may think, and have a right to, that a participation in such a demoralizing piece of rascality as stealing votes and elections would cause any man to steal money, and it will, even though he never had rogues tendencies before. But in this particular case, as in the majority, the democratic election board knew full well the grand rascality of their subjects therefore he was, "just the man for the place," could and would do their dirty work without any compunction whatever. It certainly is getting time for the democratic party in North Carolina to call a halt and do some missionary work among some of their subjects for the seed sown in '98 and 1900 by these democratic politicians are ripening into fields of lawlessness and the State is reaping a harvest rich with blackest crimes and has promises of even larger yield of criminals than has yet been seen. Nothing but a State of lawlessness can be expected to exist in any State or community where protection to the violation is guaranteed by the officials and money is appropriated out of the public treasury to defend them.

These men were promised present and future protection against any crime they might commit in the interest of the democratic party, it mattered not how black, and if they could steal elections and murder innocent men then they can and will do it now. And even though crime holds high carnival over the State from the mountains to the seashore and murders red handed, stalk the State at high noon there seems yet greater possibilities for the criminal.

Haywood-Skinner Case Continued. The case of the State against Mr. Ernest Haywood for the killing of Mr. T. Ludlow Skinner until Thursday October 1st which will be during the first week of the next criminal term of Wake Superior Court. The continuance was asked by the defense stating that two of their principal witnesses could not attend at this term of court.

A REPLICATION OF JERUSALEM.

Fifty Natives Participate in a Unique Ceremony on the World's Fair Grounds.

St. Louis, July 11.—A plot of ground consisting of ten acres located upon a hill at the World's Fair grounds was formally dedicated late to-day as the site for the republica of the city of Jerusalem, one of the distinct exhibits of the Louisiana Purchase exposition. The dedication was conducted by about 50 natives from Jerusalem, and fully 10,000 people witnessed the ceremonies.

Madame Lydia M. Von Finkelstein Ford, a native of Jerusalem, presided at the laying of the corner stone, and as the ceremonies proceeded in Hebrew and Arabic, she interpreted in English. The 50 participating natives of Palestine wore Oriental costumes. A large and magnificently embroidered tent from Egypt sheltered the participants and when all was ready ten patriarchs representing the ten tribes of Israel issued forth, each bearing a long scroll containing the Mosaic laws.

A sacrificial lamb, brought from Egypt for the purpose, was led forth. Salt was sprinkled over the participants and unleavened bread was distributed. The corner stone was laid with a ceremony that occupied 30 minutes. It was then sprinkled with oil, salt and incense and was to have been sprinkled with blood from the slaughtered lamb, but popular feeling being against the slaying of the lamb, the motions of killing were gone through with and the lamb was not killed. It is estimated that the erection of Jerusalem will cost \$4,000,000.

Paying the Price of Happiness.

"In the quest of happiness, in the attitude which we take toward the world, these things it behooveth us to mind:

It is the things we desire that are our best index, and not the things that we have. It is willingness to pay the price of our happiness that gauges our real earnestness to have it. And it is not true that any other person's idea of happiness is 'all wrong' because it is not your idea or mine."

These are the concluding paragraphs of a paper by Miss Clara E. Laughlin, in the August Delineator, on the quest of happiness—a subject about which philosophers have bustled themselves for some thousands of years, but a solution of which, adequate to all, none has been able to provide. Miss Laughlin does not offer any universal panacea but some wholesome advice that may be taken to heart by many who are engaged in the pursuit of happiness.

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobek of Colusa, Calif., writes: "For 15 years I endured insufferable pain from Rheumatism, and nothing relieved me, though I tried everything known. I came across Electric Bitters, and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed. Sold by all druggists.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Charles Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully, and spit blood, but, when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me, and I gained 58 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis and all Throat and Lung Troubles. Price 50c. and \$1.00. Trial bottles free at all drug stores.

Two Men Assault A Lady Near Salisbury.

Salisbury, N. C., July 11.—A report has reached this place of a criminal assault which occurred in Harrington township, Iredell county. It is learned while under the influence of liquor Lester Arthurs and Ed. Mills, both white men, went to the home of Mrs. Clifton Lipe, residing near Shady Grove church, and finding Mrs. Lipe alone, Mills stood at the door and watched while Arthurs went into the house and assaulted her. Mrs. Lipe was severely choked and her clothes were badly torn. During the scuffle her cries were heard by her husband who was near the house and who came to her rescue. However, upon reaching the door Mills threatened him with a pistol and threatened to shoot. Another accomplice is reported to have come by at this juncture and both Arthurs and Mills made their escape.

NEGROES SOLD IN KANSAS.

Their Work brought at Auction \$4.25 a Day—Is It Peonage?

Topeka, Kan., Dispatch to Baltimore Sun. So great has been the demand for harvest hands in Kansas the services of 10 negroes for the next 30 days were sold at auction in Russell county today. Bidding was spirited and was participated in by all of the wheat growers in the surrounding country.

The bidding started at \$2.50 a day. The price was quickly advanced to \$4.25, at which the services of two negroes were purchased by J. I. Steinell. The other eight were assigned to a wheat grower named Patterson. His highest bid was \$6 a day for the services of Joseph Hoover, the leader of the party.

By the terms of the contract the negroes hired themselves to work at any labor their purchasers have for them until the expiration of 30 days; to obey all orders and to remain with the men who purchase them for one month.

The view is expressed that this is a form of peonage. More than 5,000 men are yet needed in the Kansas harvest fields to save the great wheat crop. State Employment Agent Gerow has exhausted every effort to obtain men from outside the State, but announced to-night that enough could not be had.

A Namesake. "He's a namesake of mine," "But isn't your name John?" "Yes; they named him something else for my sake."—Michigan Wrinkle.

"Do you think Josh's inventions will work?" asked Mrs. Cornstossel. "I hope so," answered her husband. "I know mighty well that Josh won't."—Till-Bits.

If men were as anxious to do right as they are to get their rights, the world would soon be righted.

Happiness is an art, and we have to learn how to be happy, just as we have to learn how to be good.

Children in schools should be carefully watched in order to guard against trouble with the eyes, as shortsightedness is becoming yearly a more common defect. They should not be allowed to hold the books nearer the eyes than fourteen inches, and must not stoop over their work.—Ex.

Doubtful. Mamma—Johnny, I left 10 cents on this shelf a little while ago. Did you take it?

Johnny—Yes'm. There's a poor old hunchback man that has a big family to support, and I gave it to him.

Mamma—Ah, and where did you see this poor man.

Johnny—He came to the door sellin' candies an' things.—Philadelphia Press.

Why the Democratic Party Stands. [Yellow Jacket.] Some curious cranks have reared up on his hind feet and asked, "What does the democratic party stand for? Well, Bud, we suppose it stands because it is tired of running and getting left."

Alleged Murderer Captured. Winston-Salem, N. C., July 12.—John R. Rhodes, charged with the murder of Cap King, in Stokes county three weeks ago, has been captured and is now in jail at Danbury. Thomas Cook, who was implicated in the shooting of King is still at large.

What Gives us the Blues. Missouri editor, in a fit of desperation, dashed off the following: "The wind bloweth, the water floweth, the farmer soweth, the subscriber oweth, and the Lord knoweth that we are in need of our dues. So come a-runnin' 'ere we go a-gunnin'! This thing of du-nin' gives us the blues."—Ex.

Fire Bug Confesses.

Williamston, N. C., July 13.—Sunday morning the handsome brick store of William Slade, occupied by Anderson Hassell & Co., merchants was burned. It was a total loss of store and goods. Loss on goods \$10,000, insurance \$6,000, loss on store building, \$4,000, insurance \$3,300. Harrison Bros., adjoining the store lost heavily from the removal of goods and other damage. They had \$15,000 insurance which will nearly cover the damage.

Joseph Williams, who broke jail last week, where he was held for the larceny of money from A. C. L. depot some weeks ago, was suspected of entering the store.

has been said by the mothers of many other boys and girls, regarding the wonderful curative and strengthening qualities of

Dr. Miles' Nervine

"Our little boy, Harry, had spasms for 3 years and we feared the disease would affect his mind. Though we doctored continually he grew worse and had ten spasms in one week. Our attention was directed to Dr. Miles' Nervine and we began its use. When he had taken the fourth bottle the spasms disappeared and he has not had one for five years. His health now is perfect."

Free Medical Advice to Women.

Every sick and ailing woman,
Every young girl who suffers monthly,
Every woman who is approaching maternity,
Every woman who feels that life is a burden,
Every woman who has tried all other means to regain health without success,
Every woman who is going through that critical time—the change of life—
Is invited to write to Mrs. Pinkham, Lynn, Mass., in regard to her trouble, and the most expert advice telling exactly how to obtain a CURE will be sent absolutely free of cost.

The one thing that qualifies a person to give advice on any subject is experience—experience creates knowledge.

No other person has so wide an experience with female ills nor such a record of success as Mrs. Pinkham has had.

Over a hundred thousand cases come before her each year. Some personally, others by mail. And this has been going on for twenty years, day after day, and day after day.

Twenty years of constant success—think of the knowledge thus gained! Surely women are wise in seeking advice from a woman with such an experience, especially when it is free.

Mrs. Hayes, of Boston, wrote to Mrs. Pinkham when she was in great trouble. Her letter shows the result. There are actually thousands of such letters in Mrs. Pinkham's possession.

"DEAR MRS. PINKHAM:—I have been under doctors' treatment for female troubles for some time, but with no relief. They now tell me I have a fibroid tumor. I cannot sit down without pain, and the soreness extends up my spine. I have been downy with both back and front. My abdomen is swollen, I cannot wear my clothes with any comfort. Womb is dreadfully swollen, and I have had flowing spells for three years. My appetite is poor. I cannot walk or be on my feet for any length of time. "The symptoms of Fibroid Tumor, given in your little book, accurately describe my case, so I write to you for advice."—Mrs. E. F. HAYES, 252 Dudley St. (Boston), Roxbury, Mass.

"DEAR MRS. PINKHAM:—I wrote to you describing my symptoms, and asked your advice. You replied, and I followed all your directions carefully for several months, and to-day I am a well woman. "The use of Lydia E. Pinkham's Vegetable Compound, together with your advice, carefully followed, entirely expelled the tumor, and strengthened the whole system. I can walk miles now. "Your Vegetable Compound is worth five dollars a drop. I advise all women who are afflicted with tumors, or any female trouble, to write you for advice, and give it a faithful trial."—Mrs. E. F. HAYES, 252 Dudley St. (Boston), Roxbury, Mass.

Explanation of "Colored" Rains.
An explanation of the recent "colored" rains which have fallen in England is found in the story told by a skipper of the steamship Sok, which recently arrived in Plymouth, England, from South African ports. Off the African coast for eight days the vessel was enveloped in a sand storm of such density that speed had to be reduced, the fog horn had to be blown and in the middle of the day the cabin had to be lighted. During all this time the ship was navigated by dead reckoning.

One Editor's Mistake.
An editor of a small paper recently stated that he had been killed by one of the most beautiful married women in the town. He promised to tell her name in the first issue of his paper next month. In two weeks the circulation of his newspaper doubled. But when he gave the name of his wife he had to leave town.—The Fourth Estate.

IS YOUR HEALTH VALUABLE?

Disease is always a handicap; it unites men for business and pleasure—sometimes temporarily, often permanently. Life is a continuous struggle, and the man or woman afflicted with a Chronic Disease is outclassed at every turn. In this age of sharp competition, no man can hope to be successful unless sound in mind and body.

During my long career as a specialist, I have seen thousands who are carrying around some chronic disease as a bar to their success. They could easily rid themselves of the proper treatment. Any honest physician will tell you that these diseases are stubborn and obdurate, and a special knowledge is required to treat them successfully. My specialities for treating Chronic Diseases have been acquired by twenty years of close application, devoted exclusively to their study and treatment. I have treated more cases than any other physician in the United States, and I thoroughly understand just what is required in each case. My specialities include all chronic diseases, such as Rheumatism, Varicose Veins, Blood and Skin Diseases, Bladder and Kidney Complaints, Diseases of Women, etc., and my original method of treatment has proven successful in even the most obstinate cases.
